

## Essential Dates

Registration of contributions with abstract until:  
**31. May 2019**

Later submitted talks can't be considered at CANAS,  
but may be considered for the GDS-User meeting.

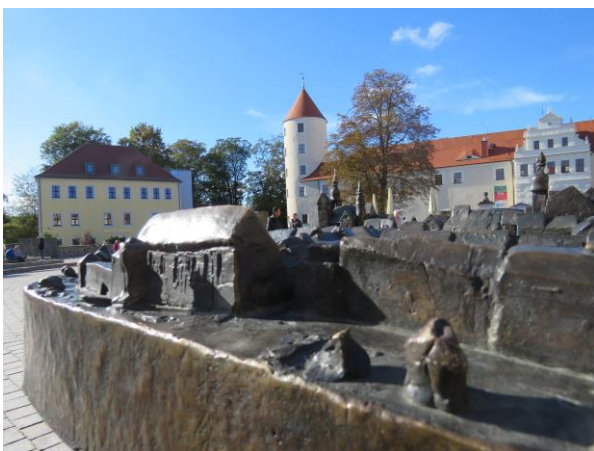

Hotel reservation until: **5. Aug. 2019**

## Accommodation

We have reserved rooms in the hotels of Freiberg,  
which you can book using the enclosed form. We suggest  
booking your accommodation as soon as possible.

## Venue:

Alte Mensa  
Petersstraße 5  
09599 Freiberg

# INVITATION

18. GDS-User Meeting  
26./27.09.2019  
in Freiberg

The working group Analytical Glow Discharge Spectrometry (GDS), part of the German Working Group for Analytical Spectrometry (DAAS) in the subgroup Analytical Chemistry of the Society of German Chemists (GDCh), unifies users, researchers and glow discharge instrument producing companies in the German speaking area.

The user meetings, usually held every 2 years, represent a good opportunity for the exchange between users and instrument producers as well as with colleagues at research institutes and universities.

From time to time the user meetings were organized in conjunctions with scientific conferences, which allows our users to get information about other analytical techniques. Also, specialists in other techniques are able to inform themselves about the present state of development in glow discharge spectrometries.

The steering group of the German GDS users will continue the tradition and so in 2019 the 18<sup>th</sup> German User Meeting will be held directly after the Colloquium Analytical Atomic Spectroscopy (CANAS) 2019 ([www.canas.eu](http://www.canas.eu)) from 23<sup>rd</sup>-26<sup>th</sup> September in Freiberg.

The GDS User Meeting will start directly after CANAS in the same location. Scientific contributions on GDS will be at the end of the CANAS program on 26<sup>th</sup> of September and registered participants of the GDS User Meeting are invited to these talks. Conversely, participants of CANAS can also register without costs at our German User Meeting, which will end at the 27<sup>th</sup> of September with an optional guided tour at the Institute for Analytical Chemistry of the TU Bergakademie Freiberg.

## Preliminary Program

### Thursday, 26.09.2019

10:30-13:00	Scientific GDS talks at CANAS
13:30-15:00	User Meeting (talks)
15:00-15:30	Coffee
15:30.18:00	User Meeting (talks, posters)
	Dinner in Freiberg

### Friday, 27.09.2019

09:00-12:00	User Meeting (talks, posters)
12:00	Lunch
13:00	Guided tour at the Institute for Analytical Chemistry of the TU Bergakademie Freiberg

## Participation and Registration

Please add this date to your diary and send us your binding registration before 31. May 2019 to [v.hoffmann@ifw-dresden.de](mailto:v.hoffmann@ifw-dresden.de).

We will need the following information from you:

- Surname, first name, institution, E-Mail, telefon, telefax
- Title of talk or poster
- Abstract (at most 1 A4-page, margin each 2,5 cm, Arial 12)
- Indication of interested topics

Participants of CANAS 2019 send their contributions please directly to [canas@chemie.tu-freiberg.de](mailto:canas@chemie.tu-freiberg.de)

**The language at the user meeting is German but and English contributions are possible.**
