5th INTERNATIONAL GLOW DISCHARGE SPECTROSCOPY SYMPOSIUM OVIEDO, SPAIN

26-29th April, 2020
More Details at
www.ew-gds.com

The European Working Group for Glow Discharge Spectroscopy (EW-GDS) takes great pleasure in announcing that the 5th International Glow Discharge Spectroscopy Symposium (IGDSS2020) will be held in Oviedo, Spain, from April 26 to April 29, 2020.

IGDSS2020 features a rich technical programme that spans both research and applied aspects of Glow Discharge Spectroscopy. There will be oral and poster presentations from both international experts and young researchers.

The symposium will concentrate on the analysis of solids by optical emission or mass spectrometry with Glow Discharge sources. Topics to be covered include, but are not limited to:

- Fundamentals (GD Processes)
- Instrumentation
- Analytical Methodology
- Depth Profiling, Thin Films
- Other Applications and Related Fields.

INVITED SPEAKERS are **Zdenek Weiss** (Czech Republic), **Ralph Sturgeon** (Canada) and **Takako Takahashi** (Japan)

The Richard Payling Prize will be Awarded by the scientific committee to the best contribution on the topic of Glow Discharge Spectroscopy presented during the symposium.

And of course there will be ample opportunity to meet with people from a global base who share your interest in GDS.

Preliminary Program

Sunday 26th April 2020, 8:00 pm

Welcome Buffet

Monday 27th April 2020, 9:00 am

Morning Session:

Invited Lecture followed by Oral Sessions

Afternoon Session:

Oral Presentations and Poster Display

Evening

Manufacturers' User Meetings, admission by Invitation Only

Tuesday 28th April 2020

Morning Session:

Invited Lecture followed by Oral Sessions

Afternoon Session:

Oral Presentations and Poster Display

Evening

Symposium Dinner

Wednesday 29th April 2020

Morning Session:

Invited Lecture followed by Oral Sessions
Symposium Closes approx. noon

Afternoon Session:

EW-GDS meeting

Accommodation is available at a reasonable price in the Ayre Hotel Oviedo (Conference Center) and Ayre Ramiro I (in the downtown, 8 min walking to the conference center). Otherwise Oviedo is a major city and many hotels are available. For further information visit the IGDSS2020 page at www.ew-gds.com

The city of Oviedo has many attractions to interest non-participating partners who may accompany delegates. The Kingdom of Asturias is characterized by a unique architectural style: Asturian pre-Romanesque Art that spread through many municipalities, particularly from Oviedo. Churches, palaces and monasteries make up the Gothic and Baroque heritage, with the Oviedo Cathedral being the finest example
